CHELLI AKSHAYA

Aspiring Data Analyst | B.Tech CSE

Phone: 97037 55010
Email: Akshaya.ch919@gmail.com
Bhimavaram, Andhra Pradesh, India

PROFILE

Final-year B.Tech Computer Science student interested in building a career in Data Analytics. Currently developing foundational skills in data analysis and visualization. Eager to learn, work on practical projects, and use data to support clear, useful business insights.

EDUCATION

B.Tech – Computer Science and Engineering **2022–2026**

D.N.R. College of Engineering & Technology, Bhimavaram

Intermediate **2020–2022**

Sri Chaitanya Junior College, Rajahmundry

SKILLS

Data Analytics: Foundational learning in Excel, SQL, Power BI, and Python.

Technical background: Python, Java, C++ (as listed in existing resume).

Soft skills: Communication, teamwork, time management, decision-making, active listening.

PROJECT

Intelligent Disease Outbreak Detection and Early Warning System Using Social Media and News Mining

Academic project concept focused on identifying early disease-outbreak signals from social media and news text. The system uses text analysis and trend monitoring to support early warnings and help users understand possible outbreak patterns.

Project areas: Text analysis, trend monitoring, dashboard-based presentation, early-warning insights.

CERTIFICATION

Python Full Stack Developer – TalentShine, India

CAREER OBJECTIVE

To start my career as a Data Analyst, strengthen my analytical and technical skills, and contribute to data-driven decision-making.
